EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Melvin Kraus on July 21, 2004:

In claim 10, line 2, "on the ground" has been deleted.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

This communication is an Examiner's reasons for allowance in response to application filed on 07/10/2003, assigned serial 10/615,873 and titled "Train Detection System and a Train Detection Method."

The following is the Examiner's statement of reasons for the indication of allowable subject matter:

After searching the prior art that are relevant to the subject matter as claimed in the present invention, the examiner has found none of the references teaches or fairly suggests a train detection system comprising the transmitter which adds a first unique code data to the train detecting signal transmitted from said control device and transmits the same to the track circuit, and a receiver which adds a second unique code data to the train detecting signal being added of the first unique code data received from the track circuit and transmits the same to said control device.

For the reason discussed above, the application is now patentable over the cited prior art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan C To whose telephone number is (703) 308-6273. The examiner can normally be reached on from 8:00AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on (703) 305-8233.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
